

VIPINDEV P

Flutter Developer | Full-Stack Mobile & Web Developer | AI-Powered Applications

Email: vipindev113@gmail.com | Phone: 9544418650 | Portfolio: myportfolio-f9ddf.web.app

LinkedIn: linkedin.com/in/vipindev-p-aa990a195 | GitHub: github.com/vipindev331 | Kollam, Kerala, India

PROFESSIONAL SUMMARY

Results-driven **Software Developer** with 4 years of software development experience, including 2+ years specializing in **Flutter and Dart**, building cross-platform mobile, web, and desktop applications with backends. Experienced in integrating **AI services** (Gemini AI, Sarvam AI) into production applications, and adept at using **AI-assisted development** tools such as Claude Code and Cursor to accelerate architecture planning, implementation, and debugging while delivering maintainable, production-quality software. A quick learner who adapts rapidly to new technologies and collaborates effectively in Agile teams.

SKILLS

- **Programming Languages:** Dart, JavaScript, Python, SQL
- **Mobile & Frontend:** Flutter (Android, iOS, Web, Desktop), Material Design, Responsive UI, UI/UX Design, UI Prototyping, Ionic, State Management, Asynchronous Programming, Dart Isolates
- **Databases & Storage:** MySQL, PostgreSQL, SQLite, Firebase, Hive, SharedPreferences
- **Cloud & API Integration:** AWS S3, Firebase Cloud Messaging (FCM), Push Notifications, Google Maps Platform, Marker Clustering, GPS Tracking, Anthropic API, Google Gemini AI, Sarvam AI
- **AI & Voice:** Speech Recognition, Multilingual Translation, Generative AI Integration, Prompt Engineering
- **Security & Authentication:** JWT Authentication, Role-Based Access Control (RBAC), OAuth (Google Sign-In), OTP Authentication, Token-Based Authentication, Audit Logging, Encryption
- **Hardware Integration:** Barcode Scanning (Camera and Hardware), ESC/POS Thermal Printing
- **AI-Assisted Development:** Claude Code, Cursor AI, Gemini AI, Google Stitch, Claude Design
- **Tools & Practices:** Git, GitHub, Postman, API Testing, Debugging, Code Review, CI/CD, Agile Methodology, Mobile App Deployment, Technical Documentation
- **Soft Skills:** Problem-Solving, Analytical Thinking, Adaptability, Team Collaboration, Communication, Time Management, Attention to Detail, Creativity

WORK EXPERIENCE

Project Assistant | May 2024 – Present

Amrita Center for Wireless Networks and Applications, Kollam, Kerala

- Developed and maintained cross-platform applications for 3 platforms (Android, iOS, and Web) from a single Flutter codebase, implementing efficient state management and responsive user interfaces.
- Published and released the application across 3 platforms: Android, iOS, and Web.
- Engineered AI-powered voice features by integrating 2 AI platforms (Sarvam AI and Gemini AI), delivering 3 capabilities: multilingual speech recognition, AI-driven translation, and intelligent form auto-filling, enabling hands-free, voice-operated workflows.
- Built backend services and REST APIs, and integrated 6 third-party services: Google Sign-In, OTP authentication, Google Maps, marker clustering, Firebase, and AWS S3.
- Optimized application performance using asynchronous programming (async/await), Dart isolates for heavy background processing, and efficient state management.
- Designed intuitive, high-performance interfaces following Material Design principles, using Claude Design and Google Stitch for rapid UI prototyping.
- Collaborated with cross-functional team members in an Agile workflow, applying Git branching strategies and participating in code reviews.
- Leveraged 5 AI-assisted development tools (Claude Code, Cursor AI, Gemini, Google Stitch, Claude Design) to accelerate software architecture, implementation, debugging, refactoring, and technical documentation.

Junior Programmer | July 2023 – April 2024

Kannur University, Kannur, Kerala

- Designed and developed web applications using core PHP and MySQL for university operations.
- Managed backend services and database administration, ensuring data integrity and system availability.
- Conducted testing and debugging to improve application functionality, stability, and reliability.

Junior Software Engineer | November 2019 – November 2020

Socius Innovative Global Brains, Trivandrum, Kerala

- Designed and developed cross-platform mobile applications for Android and iOS using the Ionic framework.
- Integrated REST APIs and managed backend services supporting mobile clients.
- Conducted testing and debugging to improve application functionality and stability.

PROJECTS

AcadPlex – Multi-Tenant Academic Management Platform

Flutter, Dart, Django REST Framework, Django Channels, PostgreSQL, Firebase | github.com/vipindev331/acadplex

- Architected a multi-tenant SaaS platform centralizing academics, communication, attendance, examinations, fees, and performance tracking for multiple institutions.
- Built 12+ integrated modules including student enrollment, bulk academic promotion, attendance, exam scheduling, result publishing, fee management, announcements, and reporting dashboards.
- Implemented real-time synchronization with WebSockets and role-based access control (RBAC) for 5 user roles, securing APIs with institution-scoped token authentication.
- Integrated 3 platform services (Firebase Cloud Messaging push notifications, Google Sign-In, and live GPS tracking); strengthened security with audit logging and credential encryption.

NxtCust POS – Offline-First Retail Billing and POS System

Flutter, Dart, Node.js, Express.js, SQLite | github.com/vipindev331/nxtcust-pos

- Built a cross-platform retail billing and POS system from a single Flutter codebase for 4 platforms (Android, iOS, Web, Desktop) with a Node.js, Express.js, and SQLite backend.
- Designed an offline-first architecture with a sync engine that stores transactions locally and automatically synchronizes with the server when connectivity is restored, preventing data loss.
- Developed JWT authentication, RBAC for 3 roles (SuperAdmin, Manager, Staff), camera and hardware barcode scanning, ESC/POS thermal receipt printing, and audit logging.

EDUCATION

Master of Science (M.Sc.) in Computer Science | University of Kerala | 2020 – 2022 | 68%

Bachelor of Computer Applications (BCA) | University of Kerala | 2016 – 2019 | 66%

CERTIFICATIONS & ACHIEVEMENTS

- Junior Software Developer Certification – Skill India (DDU-GKY)
- Treasurer and Executive Member, COSSA, Department of Computer Science, University of Kerala (2020 – 2021)
