

VIPINDEV P

Full-Stack Developer | Flutter & Node.js | AI-Powered Applications

Email: vipindev113@gmail.com | Phone: +91 8848445122 | Portfolio: myportfolio-f9ddf.web.app
LinkedIn: linkedin.com/in/vipindev-p-aa990a195 | GitHub: github.com/vipindev331 | Kollam, Kerala, India

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 2+ years of specialized experience in Flutter, Dart, and Node.js, building cross-platform mobile, web, and desktop applications with backend integrations. Overall, 4+ years of software development experience, with hands-on expertise in integrating AI services such as Gemini AI and Sarvam AI into applications. Experienced in AI-assisted development using tools such as Claude Code and Cursor for architecture planning, implementation, debugging, and problem-solving. A quick learner who adapts rapidly to new technologies and collaborates effectively in Agile teams.

SKILLS

- **Programming Languages:** Dart, JavaScript, Python, SQL
- **Mobile & Frontend:** Flutter (Android, iOS, Web, Desktop), Material Design, Responsive UI, UI/UX Design, UI Prototyping, Ionic, State Management, Asynchronous Programming, Dart Isolates
- **Backend:** Node.js, Express.js, REST API Design, JWT Authentication, PHP
- **Databases & Storage:** MySQL, PostgreSQL, SQLite, Firebase, Hive, SharedPreferences
- **Cloud & API Integration:** AWS S3, Firebase Cloud Messaging (FCM), Push Notifications, Google Maps Platform, Marker Clustering, GPS Tracking, Anthropic API, Google Gemini AI, Sarvam AI
- **AI & Voice:** Speech Recognition, Multilingual Translation, Generative AI Integration, Prompt Engineering
- **AI-Assisted Development Tools:** Claude Code, Cursor AI, Gemini AI, Google Stitch, Claude Design
- **Tools & Practices:** Git, GitHub, Postman, API Testing, Debugging, Code Review, CI/CD, Agile Methodology, Mobile App Deployment, Technical Documentation
- **Soft Skills:** Problem-Solving, Analytical Thinking, Adaptability, Team Collaboration, Communication, Time Management, Attention to Detail, Creativity

WORK EXPERIENCE

Project Assistant - Software Development | May 2024 – Present

Amrita Center for Wireless Networks and Applications, Kollam, Kerala

- Developed and maintained a cross-platform application for Android, iOS, and Web from a single Flutter codebase, with Node.js-based backend integrations, efficient state management, and responsive user interfaces.
- Published and released the application on all three platforms: Android, iOS, and Web.
- Engineered AI-powered voice features by integrating Sarvam AI and Gemini AI, delivering multilingual speech recognition, AI-driven translation, and intelligent form auto-filling for hands-free, voice-operated workflows.
- Developed and managed Node.js backend services and REST APIs, including API design, request/response handling, authentication, database integration, error handling, and ongoing maintenance.
- Integrated REST APIs and third-party services into Flutter applications, including Google Sign-In, OTP authentication, Google Maps, Flutter Map, marker clustering, Firebase, AWS S3, and AI services such as Gemini AI and Sarvam AI.
- Optimized application performance using asynchronous programming (async/await), Dart isolates for heavy background processing, and efficient state management.
- Designed intuitive, high-performance interfaces following Material Design principles, using Claude Design and Google Stitch for rapid UI prototyping.
- Collaborated with cross-functional team members in an Agile workflow, applying Git branching strategies and participating in code reviews.
- Leveraged AI-assisted development tools (Claude Code, Cursor AI, Gemini, Google Stitch, Claude Design) to accelerate software architecture, implementation, debugging, refactoring, and technical documentation.

Junior Programmer | July 2023 – April 2024

Kannur University, Kannur, Kerala

- Designed and developed web applications using core PHP and MySQL for university operations.
- Managed backend services and database administration, ensuring data integrity and system availability.
- Conducted testing and debugging to improve application functionality, stability, and reliability.

Junior Software Engineer | November 2019 – November 2020

Socius Innovative Global Brains, Trivandrum, Kerala

- Designed and developed cross-platform mobile applications for Android and iOS using the Ionic framework.
- Integrated REST APIs and managed backend services supporting mobile clients.
- Conducted testing and debugging to improve application functionality and stability.

PRACTICE & LEARNING PROJECTS

AcadPlex – Multi-Tenant Academic Management Platform

Flutter, Dart, Django, PostgreSQL, Firebase | github.com/vipindev331/acadplex

- Developed a multi-tenant Education Management SaaS platform for institutions to manage students, academics, attendance, examinations, fees, communication, and performance through a centralized system, with 12+ integrated modules.
- Implemented real-time synchronization using WebSockets, institution-scoped authentication, and integrations including Firebase Cloud Messaging, Google Sign-In, and live GPS tracking, with audit logging and credential encryption.

NxtCust POS – Offline-First Retail Billing and POS System

Flutter, Dart, Node.js, Express.js, SQLite | github.com/vipindev331/nxtcust-pos

- Built a cross-platform retail billing and POS system using Flutter for Android, iOS, Web, and Desktop, with a Node.js, Express.js, and SQLite backend.
- Implemented offline-first sync, JWT authentication, barcode scanning, thermal receipt printing, and audit logging.

EDUCATION

Master of Science (M.Sc.) in Computer Science | University of Kerala | 2020 – 2022

Bachelor of Computer Applications (BCA) | University of Kerala | 2016 – 2019

CERTIFICATIONS & ACHIEVEMENTS

- Junior Software Developer Certification – Skill India (DDU-GKY)
- Treasurer and Executive Member, COSSA, Department of Computer Science, University of Kerala (2020 – 2021)

ADDITIONAL INFORMATION

- **Notice Period:** 1 Month
- **Availability:** Open to opportunities in Mobile App, Full-Stack, and Front-End Development.
- **Work Mode:** Open to On-site / Hybrid / Remote opportunities
- **Current Location:** Kollam, Kerala
- **Willing to Relocate:** Yes
- **AI-Assisted Development:** Yes, Experienced
